

Ashley Canty

Contact	609 674 6029 - canty.ashleyj@gmail.com - Pleasantville, New Jersey
Education	Rutgers, The State University of New Jersey B.S. Computer Science 2018 Dean's List Spring 2015
Projects	<p>Wunderapp - Created a clean, non-responsive, single-page app with Flexbox, that was based on a Wunderapp redesign found on Dribbble.com.</p> <p>IMDb - Developed a responsive, single-page website that was inspired by an IMDb redesign, and built using frameworks such as Bootstrap 4 and Hyperapp.</p> <p>Dynamic HTML Table - An array of objects is looped over to dynamically generate an HTML table and populate cells with data. Conditional statements are used to apply CSS classes to table rows based on certain property values of the current object.</p> <p>Schedule Manager - Developed a responsive website based on a layout found on Dribbble.com using jQuery.</p> <p>Whatcha Lookin' App - Created an Android app in Java for an information security company as part of a senior project. It was integrated with Google Firebase Cloud Messaging to maintain a login sessions and receive push notifications. Upon logging, a request would be made to a GET endpoint that would return a JSON object to be parsed and loaded into both CardView and RecyclerView.</p> <p>Online Quiz - Developed the front-end of an MVC based online quiz system using PHP cURL to execute HTTP POST requests.. Questions and answers were received as JSON objects that were loaded into a dynamic filter table using PHP and Javascript.</p>
Skills	Proficient in HTML5 , CSS3/SCSS , and Java Familiar with Javascript(ES5/ES6) , jQuery , Bootstrap , PHP , JSON , and Git Good understanding of Object-Oriented Programming Currently studying React
